# ROY CRANSTON HEREFORDS

Celebrating our 19th Annual Sale and many more years of raising Registered Horned Hereford Cattle.

**Congratulations to the 2008 drawing winner!**

The Jacket was won by the **Roger Croell**  
Thank you for your purchases.

## **Bull Guarantee:**

**Bulls are guaranteed breeders.** All claims must be submitted in writing to seller within eight months of sale date, along with semen evaluation and health report from a veterinarian, at the buyer's expense. Seller shall have the privilege of trying the bull after his return before making any adjustment. **This guarantee is void if there is evidence of improper management in caring for the animal, or the bull's inability to breed is due to sickness or injury which incurred after being sold.** The bulls will be fertility tested prior to the sale.

## Greetings from Roy & Janet,

A sincere **thank you** to those who have supported our sales in the past and we look forward to seeing you again this year.

What a year especially the spring with flooding, three blizzards in two weeks, and flooding again. Needless to say we experienced the most challenging calving season ever. This all brought lots of grass, dams full of water and the best hay crop in 10 years.

We are again proud to present bulls from Churchill Dakota 546R. These bulls are exceptional with excellent milk and performance at weaning and yearling. Also we have quality bulls sired by Churchill Domino 2200, Churchill Robin Hood 380, and RC 1179 Wellington 699 sired by RC 840 Wellington 600 both our home raised bulls. These will be the last bulls from Churchill Domino 2200, Churchill Robin Hood 380 and RC 1179 Wellington 699.

There are bulls to meet all your needs. We strive to breed for milk, calving ease, thickness, length, depth, longevity and disposition. These bulls will put the pounds on your calves and are satisfactory to meet your breeding needs for both the registered Hereford and commercial beef cattleman. Many of the bulls are loaded with dark pigment and would be suitable to produce quality black baldy calves.

As calves these bulls were fed for growth, have not received any creep feed and were summered on grass. Their Adj. 205 Weights reflect the better pasture conditions of 2008. This past summer they were pastured on good grass and since September 26, 2009 have been on a ration of ground hay with distillers grain, ground corn with corn silage added early January 2010.

The heifers have been sired by Churchill Dakota 546R, RC 1253 Gold Domino, Churchill Neon 7187T ET, Churchill Domino 714T, and SR Saga 1307. More information on these sires is on page 13. They all have been dehorned. Some have been registered and the majority of the others could be registered at the buyer's request for a small additional fee per head. We will be selling 20 of these top quality Hereford heifer calves.

We welcome you to stop by our ranch south of Prairie City and take a look at our bulls, heifers, and cow herd anytime. The coffee pot is always on.

Remember our **sale day will be coming soon** and we will see you there.

Roy & Janet
