- We also have 8 bull calves for sale at home.
- Reasonably priced and bred the same way.
- We might also sell some of our heifer calves that would be full sisters to our top bulls.

## Stutheit Herefords Offers:

Three Canadian bred full brothers that are really consistent for thickness with good muscle expression, moderate birthweights, with pigment and overall quality. They are backed by a cow that is a tremendous, fault free, power cow. She now has 19 daughters in herd counting heifer calves. After this year she will have 10 bulls that have gone to the national western stock show. The sire of these calves AGA 13G GENERAL 114L is a bull we bought a semen interest in with John Ridder and Ace Diemert. 114L combined with the mother of these bulls offers very highly maternal, great cows in the pedigree. Look for these bulls in the yards in Denver. Selling full possession and half interest and half semen sales of your choice of Ruger and Winchester. Contact us for pricing.

Ruger is a heavy muscled bull with good hair, pigment, and performance. He has good length, clean fronted, and our highest 205 weight. The marbling on Ruger and Winchester really impressed us and with there outcross genetics make both of these bulls true prospects that we hope you will strongly consider for your program!

**S REMINGTON** 15T ET Born 02/10/07

AGA 13G GENERAL 114L

EPD'S BW 5.9 WW 42 YW 77 MM 15 MG 36

114L was named 2002 Southern Alberta Bull Spectacular "People's Choice". A 114l son (171n) won this same award in 2004 and was later named the Intermediate Champion and second high selling bull (17,500) at the 2005 Calgary Bull Sale. Another 114l son (193n) topped the 2005 Medicine Hat Bull Sale at 14,000. On the maternal side, 114l's mother is a Dam of Distinction. Her mother is a Dam of Great Distinction and the great grandmother is one of there great foundation cows. ALSO in 2003, the average weaning index on all of the 114l bull calves was 107 and the average yearling index was 113! Some of the best things he passes on to his calves are his big tops, thickness, and length.
